# **Instructions for Form FTB 5870A**

## Tax on Accumulation Distribution of Trusts

References in these instructions are to the Internal Revenue Code (IRC) as of January 1, 1998, and to the California Revenue & Taxation Code (R&TC).

# **General Information**

In general, California tax law conforms to the Internal Revenue Code (IRC) as of January 1, 1998. However, there are continuing differences between California and federal tax law. California has not conformed to most of the changes made to the IRC by the federal Internal Revenue Service Restructuring and Reform Act of 1998 (Public Law 105-206) and has not conformed to any of the changes made by the Tax and Trade Relief Extension Act of 1998 (Public Law 105-277).

If you received an accumulation distribution from a foreign trust, then federal Form 4970, Tax on Accumulation Distribution of Trusts, is used as a worksheet. The actual partial tax from an accumulation distribution of a foreign trust computed on federal Form 4970 is reported on federal Form 3520, Annual Return to Report Transactions With Foreign Trusts and Receipt of Certain Foreign Gifts. California does not conform to the federal provision relating to information returns required for foreign trusts with United States beneficiaries (IRC Section 6048 (c)).

Report the accumulation distributions from foreign trusts and from certain domestic trusts (see IRC Section 665 (c)) on this form, and attach it to your return.

California tax law conforms to provisions of the Taxpayer Relief Act of 1997 that repealed the throwback rules for distributions made by certain domestic trusts in tax years beginning on or after January 1, 1998.

**Note:** Although California conforms to the federal provision repealing the throwback rules, California may still apply R&TC Section 17745(b). This provision states that if the trust did not pay tax on current or accumulated income of the trust because the resident beneficiary's interest in the trust was contingent, this income will be taxable when it is distributed or distributable to the beneficiary. See the instructions for Form 541 for more information.

#### **Purpose**

Use form FTB 5870A to figure the additional tax under IRC Section 667 or R&TC Sections 17745(b) and (d) on an accumulation distribution made by a foreign trust and certain domestic trusts in the current year.

If you were a noncontingent beneficiary and you received Schedule J (541), Trust Allocation of an Accumulation Distribution, and the trust filed Form 541, California Fiduciary Income Tax Return, and paid the tax, compute your additional tax under the provisions of IRC Section 667. Complete Part I of form FTB 5870A to determine the amount of the tax due.

If you were a contingent beneficiary and you did not receive Schedule J (541) because the trust was not required to file Form 541, compute your additional tax under the provisions of R&TC Sections 17745(b) and (d). Complete Part II, Section A or Section B, of form FTB 5870A to determine the amount of additional tax due.

**Do not use form FTB 5870A** if you were a noncontingent beneficiary and you received an accumulation distribution, but you did not receive Schedule J (541) because the trust did not file Form 541 or pay the required California tax due. The entire trust accumulation income is taxable in the year that you receive the distribution, and should be reported on Schedule CA (540), California Adjustments – Residents, or Schedule CA (540NR), California Adjustments – Nonresidents or Part-Year Residents, line 21f, column C. See R&TC Section 17745(a).

California does not follow the federal rules for:

- Generation-skipping transfer tax imposed by IRC Section 2601; and
- The tax relating to estates imposed by IRC Section 2001 or Section 2101.

Except as explained above, use the instructions for federal Form 4970 to compute the partial tax.

Nonresidents or part-year residents in preceding 5 years: For any year you were a nonresident or part-year resident in the accumulation years listed in Part I, Section B, skip line 14 through line 22. Complete Form 540NR, California Nonresident or Part-Year Resident Income Tax Return up to line 46, total tax. Make your adjustments on the accumulation years listed, eliminating the highest and lowest taxable income years. Include in the total adjusted gross income for Form 540NR the amount from form FTB 5870A, line 12, plus all other income of the beneficiary as if the beneficiary was a California resident for the entire year.

If you were a California resident at the trust's year end, include the amount from form FTB 5870A, line 12, in California adjusted gross income on the Form 540NR, line 20. If you were a nonresident at the trust's year end, include the California source income amount from form FTB 5870A, line 12 in California adjusted gross income on Form 540NR, line 20. You may need to contact the trust for additional information regarding sourced income. In either instance, include all other income of the beneficiary from periods of California residency and all other California source income from periods of nonresidency.

Enter the amount from Form 540NR, line 46 on form FTB 5870A, line 23. Follow the instructions for completing the rest of form FTB 5870A.

# **Specific Line Instructions**

# Part I

**Line 1** – Enter the amount distributed in the current year that represents the undistributed net income of a trust considered to have been distributed in earlier years.

Line 2 – Enter any amount on line 1 that represents undistributed net income (UNI) of a trust considered to have been accumulated before you were born or reached age 21. However, if the multiple trust rule applies, see the instructions for line 4.

Line 4 – Except as noted below under "Special Rule for Multiple Trusts," enter on line 4 the California taxes (not including any alternative minimum tax) charged for any earlier year on the trust income that are attributable (under IRC Sections 666(b) and (c)) to the net income reported on line 3.

**Special Rule for Multiple Trusts.** If you received accumulation distributions from two or more other trusts that were considered to have been made in

any of the earlier tax years from which the current accumulation distribution is considered to have been made, do not include on line 4 the taxes attributable to the current accumulation distribution considered to have been distributed in the same earlier tax year(s).

This special rule applies only to those trusts with accumulation distributions (including earlier accumulation distributions that are considered under IRC Section 666(a) to have been distributed in the same earlier year) that total \$1,000 or more.

Line 8 – You can determine the number of years which the UNI is deemed to have been distributed by counting the throwback years for which there are entries on line 26 through line 29 of Part IV of Schedule J (Form 541). These throwback rules apply even if you would not have been entitled to receive a distribution in the earlier tax year if the distribution had actually been made then.

**Note:** There can be more than four throwback years.

Line 11 – From the number of years entered on line 8, subtract any year in which the distribution from column (a), Part IV of Schedule J (Form 541) is less than the amount on line 10 of form FTB 5870A. If the distribution for each throwback year is more than line 10, then enter the same number on line 11 as you entered on line 8.

Line 13 – Enter your taxable income for years 1994 through 1998, even if the trust had accumulated income less than five years after the beneficiary became 21 years old. Use the taxable income as originally reported, amended, or as changed by the Franchise Tax Board (FTB). Include in the taxable income, amounts considered distributed as a result of prior accumulation distributions whether from the same or another trust, and whether made in an earlier year or the current year.

For years 1994 through 1998, enter the amount of your taxable income, but not less than zero.

Line 17 — Compute the tax (not including any alternative minimum tax) on the income on line 16 using the tax rates in effect for the earlier year shown in each of the three columns. Use the California tax tables included in the personal income tax booklets for prior years. If you have Internet access, you may download, view, and print California income tax forms and publications. Our website address is:

#### www.ftb.ca.gov

To order the booklets and forms for tax years 1995 through 1999, call FTB's automated phone service at (800) 338-0505 (within the United States) or (916) 845-6600 (from outside the United States [not toll-free]). Select personal income tax information, then forms request, and follow the recorded instructions.

Line 18 – Enter your tax (not including any alternative minimum tax) as originally reported, amended, or as changed by the FTB before reduction for any credits for the particular earlier year shown in each of the three columns.

Line 20 – Include on line 20 only the net change in nonrefundable credits, such as exemption credit, etc. For example, to the extent the tax on line 18 is less than the allowable exemption credit, only the excess exemption credit is to be included on line 20.

**Line 21** – If the net change results in a decrease in allowable credits, add line 20 and line 19.

Line 22 – Complete and attach a separate Schedule P (100, 540, 540NR, or 541) to recompute the alternative minimum tax for each earlier year and show any change in those taxes in the bottom margin of the form. Enter the adjustment on line 22.

**Line 28 – Individuals –** Enter the amount from line 28 on Form 540, line 23; or Form 540NR, line 26. Fill in the circle labeled "FTB 5870A."

Estates and trusts – Include the amount from line 28 on Form 541, line 21b. Write "FTB 5870A" on that line.

Other filers – Add the amount on line 28 to the total tax liability before credits on your tax return for the year of the accumulation distribution.

Attach form FTB 5870A to the back of your return.

#### Part II

If you were a contingent beneficiary and the trust was not required to file Form 541 because your interest was contingent, you will not receive a Schedule J (541). Therefore, you may be required to contact the trustee to determine any required information that has not been provided to you. Before you can complete form FTB 5870A, you will need to know the:

- Total number of years that the trust income was accumulated; and
- · Total amount of the accumulation distribution.

If the total number of years that the trust income was accumulated is 5 or more, complete Section A to determine your tax due.

If the total number of years that the trust income was accumulated is 4 or less, complete Section B to determine your tax due.

Line 2 – Enter the amount from line 2 on Schedule CA (540 or 540NR), line 21f, column C. This is the amount to be included in the current year. The balance of this schedule will be used to compute the tax on the portion of the distribution attributable to prior years.

**Line 3** – Enter "Yes" in each column for the years that you were either a California resident or part-year resident. Enter "No" for the years that you were a nonresident.

**Line 4** – Enter your taxable income from years 1993 through 1998. Use the taxable income as originally reported, amended, or as changed by the FTB.

Line 14 – Complete and attach a separate Schedule P (100, 540, 540NR, or 541) to recompute the alternative minimum tax for each earlier year and show any change in those taxes in the bottom margin of the form. Enter the adjustment on line 14.

Line 16 – Add line 15, column (a) through column (d), for all years that you entered "Yes" on line 5. Do not include any amounts for any year that you entered "No."

Individuals – Enter the amount from line 16 on Form 540, line 23; or Form 540NR, line 26. Fill in the circle labeled "FTB 5870A."

**Estates and trusts** – Enter the amount from line 16 on Form 541, line 21b. Write "FTB 5870A" on that line.
